

"I love that First Steps Learning Academy has an open relationship with the families. I always receive progress reports, emails, and direct communication from the teacher acknowledging what Joseph has learned, his strengths, and what we should work on at home. They really care about the overall success of the children."

~ Henriette Andersen

## About us

Here at First Steps Learning Academy, we are a family and we develop a partnership with families that allow us all to work together, to create the perfect structured environment specific to the needs of each child in our care. Our partnerships allows us to effectively assist you with the developmental needs, to help your child excel on the road ahead. We have an open door policy and we encourage parents to become actively involved in the classrooms. Communication is the most important aspect of our relationship, so it is important that lines of communication remain clear and available. On behalf of the entire staff, it is our pleasure to welcome you to First Steps Learning Academy!

**“We build the sophisticated, inquisitive, persistent, and passionate men and women of tomorrow, by expanding and developing the innovative and creative minds of our scholars of today. ”**
